## News

### **Residents invited to share their views on rubbish**

Residents are being asked to share their views about rubbish and recycling as part of a major new public engagement campaign aimed at reducing waste and protecting the environment in North Yorkshire.

Responses to the Let's Talk Rubbish survey will help North Yorkshire Council to understand residents' behaviours and shape future improvements to its collection service.

Across the county, around 310,000 tonnes of household waste is collected each year from over 300,000 properties. About 45 per cent of this is reused, recycled, or composted.

The formation of North Yorkshire Council brought together seven different ways of collecting household waste and recycling, which was the role of the district and borough councils.

By looking at the existing service, the council is striving to be more efficient and cost-effective by encouraging residents to reduce household waste and increase recycling, as well as ensuring everyone receives the same, regardless of where they live.

Through Let's Talk Rubbish, the council is consulting on the proposal to provide households with two wheelie bins for recycling – one for glass, cans and plastic, and one for paper and card, with alternate fortnightly collections.

A key aim is to reduce contamination and collect better quality material at the kerbside, which is improved when residents are able to separate recyclable material.

When paper or card is mixed with plastic or glass, or exposed to the elements, it can become wet and lower the resale value. However, by keeping these items separate, it means they are worth more to recycling manufacturers.

Two wheelie bins would also provide residents with maximum capacity to recycle as much material as they can, as well as reduce any material being scattered on the street from either the wind or wildlife on collection day.

The collection of non-recyclable rubbish will remain the same as it is now, and residents can also opt-in for garden waste collections.

As with current collections, alternative methods would also still be used for properties where storage or access is limited.

North Yorkshire Council's executive member for managing our environment, Cllr Greg White, said: "Following an extensive review of the different collection methods, the proposal to provide two wheelie bins is our preferred option for recycling collections.

"It would mean residents have the capacity to recycle more, and it would also provide the best value for money, as high-quality, clean recyclable material is worth more to manufacturers.

"By reducing waste and increasing our recycling, we can also help to conserve our natural resources, protect the environment, save energy, and support our ambitions of becoming carbon negative.

“We know this is an important subject, so through Let’s Talk Rubbish, we want to know how you feel about your existing collection service and what we can all do to help achieve our goals.”

All local authorities must meet the requirements of the Environment Act 2021 and move towards improved recycling collections, where possible. The Government also expects all councils to recycle 65 per cent of their waste by 2035.

Let’s Talk Rubbish is part of the council’s ongoing Let’s Talk campaign, listening to people who live and work in North Yorkshire. The Let’s Talk campaign has already sought the public’s views on the council’s finances, transport and a climate change strategy.

To take part in the survey, visit [www.northyorks.gov.uk/LetsTalk](http://www.northyorks.gov.uk/LetsTalk)

Feedback can also be provided in the following ways:

- Pick up a paper copy of the survey from a local library or main local office and return it in the envelope provided.
- Contact North Yorkshire Council by calling 0300 131 2 131 - when prompted say ‘Let’s Talk’.
- Email [LetsTalk@northyorks.gov.uk](mailto:LetsTalk@northyorks.gov.uk).

Accessible formats of the survey are available on request. The deadline for responses is September 16. A schedule of face-to-face engagement events will be shown on the consultation webpage.

## **APPENDIX 2 Consultation information**

### **Let’s Talk Rubbish - Household recycling collections in North Yorkshire**

This information explains why we are asking you about your household rubbish and recycling in our Let’s Talk Rubbish survey.

Before the formation of North Yorkshire Council, the seven former borough and district authorities all collected household rubbish the same way with wheelie bins, or sacks for restricted access properties. Garden waste services have been brought together and are now provided in the same way, but recycling is still collected differently across the county.

*\*Approximately 45 per cent of properties in the Harrogate area have a wheelie bin for glass, cans and plastic*

**We now want to make the recycling collection service the same for everyone, to help ensure we are making the best use of resources and providing value for money.**

We must also meet the requirements of the [Environment Act 2021](#) to improve recycling collections. And Government expects all councils to recycle 65 per cent of their waste by 2035.

Following a review of our existing recycling collection methods, we identified three different options for further investigation:

**Option 1:** All recycling in one 240-litre wheelie bin collected fortnightly.

**Option 2:** Separate recycling boxes for each material, collected fortnightly.

**Option 3:** Two 240-litre wheelie bins, one for glass, cans and plastic, and one for paper and card, with alternate fortnightly collections.

For each of the three shortlisted options, we have looked at value for money, contamination, and carbon reduction.

## Value for money

- Recycling with wheelie bins (option 1 and 3) requires the fewest vehicles, highlighting the efficiency of using wheelie bins and single compartment vehicles
- Option 3 (two 240-litre wheelie bins for glass, cans and plastic, and paper and card collected alternate fortnightly) could see the highest overall cost reduction
- Option 2 (separate recycling boxes) could see the second highest cost saving but requires the most staff, due to the high number of vehicles required to operate the service
- Option 1 (all recycling in one wheelie bin) could see the lowest decrease in total costs and the least value for money. Higher contamination levels combined with lower quality material could result in higher treatment costs and less income.

With all options, there are costs of additional containers and provision of vehicles, but costs will be minimised by changing vehicles as they reach the end of their life.

---

## **Contamination**

Comparison with other local authorities shows that contamination (non-recyclable items) is lower when residents sort materials (options 2 and 3). As part of any changes, we would provide information to all residents about recycling effectively and helping to contribute to increasing our recycling rates.

## **Carbon reduction**

Emissions, from collections and onward haulage of recyclable material, is the only area that impacts the total amount from the baseline. Only small, marginal changes are observed across all options.

## **Other things to consider with bags and boxes (option 2)**

- Issues with recycling items escaping from boxes and bags on windy days
- Paper collected in bags or boxes becomes wet when it rains and can be rejected by paper mills meaning further costs and reduced income
- The manual handling involved for residents and collection crews with lifting heavy boxes and bags means wheelie bins are much easier to use and empty.

## **Conclusion**

Following an extensive review of the different collection methods, option 3 (two wheelie bins, one for glass, cans and plastic, and one for paper and card, with alternate fortnightly collections) has been identified as the preferred collection method for the majority of properties. Fortnightly collection of non-recyclable rubbish will continue.

This option would provide best value for money because high-quality recyclable materials would be presented at the kerbside and sold to manufacturers who would recycle them to make new products.

Two wheelie bins would also provide residents with more capacity to recycle as much material as possible. A third wheelie bin is provided for normal rubbish. Residents can continue to opt in for a garden waste collection should they wish to do so.

As is currently the case, alternative methods of collection would be used for properties where storage or access is limited. This may include sack collections and communal or different sized bins.

### **Boundary Commission**

o: All Parish Meetings/Parish/Town and City Councils (the Parish Sector),

### **Please find below the meeting information and joining instructions for the Boundary Commission Parish Sector Briefing – Thursday 29 August at 7pm**

The Local Government Boundary Commission for England (LGBCE) is due to begin an electoral review of North Yorkshire Council.

The LGBCE is a parliamentary body established by statute to conduct boundary, electoral and structural reviews of local government areas in England. The Commission is independent of government and political parties and is directly accountable to the Speaker's Committee of the House of Commons. An electoral review examines and proposes new electoral arrangements for the whole local authority. These are:

- The total number of councillors that should be elected to the local authority in the future: (called the 'council size')
- The total number of divisions, division boundaries, names and the number of councillors to represent each division.

As such, the review is likely to have implications for North Yorkshire Council and its constituent parishes. The new electoral arrangements will come into effect at an all-out election which will take place at the next county elections in 2027.

To broaden your knowledge of the review, the LGBCE has agreed to undertake a briefing which is open to all parishes and community groups across North Yorkshire. The briefing will take place at 7pm on Thursday 29 August remotely through Microsoft Teams.

Ahead of the briefing, if you have any questions, please direct those to [jonathan.ashby@lgbce.org.uk](mailto:jonathan.ashby@lgbce.org.uk)

### **Information on proposed changes to National Planning Policy**

Dear Charlotte E Smith

Following the launch of the Government's consultation on [proposed changes to the National Planning Policy Framework and other changes to the planning system](#) it is necessary to take stock and understand the implications for the new local plan for North Yorkshire prior to launching the first major stage of consultation; the Issues and Options Consultation. This means that the Issues and Options Consultation will take place early next year rather than commencing in December of this year. Whilst this is a short delay to the start of the consultation, work continues on all aspects of the evidence base to support the local plan.

## **Dark Sky Reserve Lighting in the Yorkshire Dales**

Good afternoon,

The Yorkshire Dales National Park is hosting a training event on Dark Sky Reserve Lighting in the Yorkshire Dales. The event focuses on best practices for minimizing light pollution, particularly aimed at local businesses, tradespeople, landowners and holiday accommodation providers within the Yorkshire Dales National Park. The presentation will focus on the importance of proper lighting practices to minimize light pollution in the Yorkshire Dales National Park and the benefits this has on our dark skies, wildlife, ecosystems and human health.

This is an informal, **FREE** event which will take place on:

**Date: Monday, 11 November 2024**

**Time: 5.30 - 7pm**

**Location: Yoredale, Bainbridge, DL8 3EL**

We would greatly appreciate it if you could help us in promoting the event and would be very grateful if you could include information about this event in your upcoming Parish magazine or newsletter to ensure that as many relevant parties as possible are made aware and have the opportunity to participate.

## **Recruitment to the NYLAF**

Good afternoon, Parish Clerks

Please find attached a recruitment poster for the North Yorkshire Local Access Forum (NYLAF). NYLAF is an independent body that advises North Yorkshire Council, and other bodies, on how people can make the most of opportunities for enjoying the great outdoors, and North Yorkshire Council is inviting local people with an interest in countryside access to apply to join.

The Forum brings together representatives of land managers, users and other relevant areas of interest to watch over and help to shape the future of footpaths, bridleways, byways, open access land and other green spaces within North Yorkshire, outside the boundaries of the National Parks.

We would appreciate it if you could print a copy of the poster off and display it in your parish notice board until the closing date for applications, which is Friday, 23 August 2024.

Kind regards Dawn

## New guide to care and support in North Yorkshire - a crucial time for information

A new, updated Care Services Directory - a guide that promotes wellbeing and independence for adults has been published today in association with North Yorkshire Council. It gives readers crucial information on how to access, and pay for, care services throughout North Yorkshire. In an increasingly digital world, this printed publication is a useful resource to keep handy if you find it difficult to get online.

If you're growing concerned about your care options, or just want some more information on what your choices may be, this Directory can help. With information to help you understand your options, where to go for advice and how the paying for care system works, the Care Services Directory can support you to make informed decisions.

The new edition of the Care Services Directory for Adults and accompanying website give information on all aspects of arranging care and support in North Yorkshire. It includes how to stay independent for as long as possible, the different care and support options available and what to look for when choosing a care provider. It also offers guidance on important issues such as paying for care and what financial assistance may be available from the local authority. There are comprehensive listings of all registered care services throughout North Yorkshire, plus checklists to help you ask the right questions when visiting services.

For a free copy of Care Services Directory - a guide that promotes wellbeing and independence for adults contact the North Yorkshire Councils customer service centre on 0300 131 2 131. The Directory will be available throughout the region from outlets including carers' centres, hospitals, GP surgeries, Age UK and Carers' Resource. It can be downloaded from [www.carechoices.co.uk](http://www.carechoices.co.uk) and is also available in spoken word. You can also order a copy to your door by visiting [www.carechoices.co.uk/order-copies-of-a-directory](http://www.carechoices.co.uk/order-copies-of-a-directory)

Jo Dovey, Director of Policy and Communications at the Guide's publisher, Care Choices, commented: "This is an invaluable source of information for anyone considering short- or long-term care in North Yorkshire, and contains vital information to help people decide what type of care and support is best for them.

"With the current crisis in social care, finding a care service for yourself or a loved one that meets their needs and is affordable can be a daunting and unfamiliar task. This new Care Services Directory - a guide that promotes wellbeing and independence for Adults has been compiled to help people understand the process and offer them reassurance at every step of their journey."

## **Best Kept Village**

Marske and New Forest

Dear Charlotte,

I write to thank you and the villagers of Marske and new Forest for taking part in the Rotary Club of Richmond Best Kept Village Competition 2024. I have to inform you that on this occasion you were not a prize winner. I know how much the effort you have made has contributed to the highest of standards in this competition. The prize winners in the three sections are listed below. I understand how this will be disappointing for all those involved after months of effort. The standard of all participant villages is immensely high.

We do not publish a full list of scores achieved or provide individual village feedback, but later in August I will prepare a guide to those things across all the entrants, that the Judges found enhanced scores and all those things that village groups may consider helpful to do in the future.

We have diversified the prizes this year. Although villages may have qualified for more than one of these prizes, as we said we would at the start of the competition, we have spread the prizes where this is the case. We are pleased that there are new village names among the prizes this year and we are delighted these are awarded right across the region.

**1st Prize £400 in the Richmond Rotary Best Kept Village.**

**Aldbrough St John**

**New Entrant(since 2019) £100**

**Skeeby**

**£50 to provide a sapling in recognition of how the village has enhanced the environment to encourage nature and encouraged individuals to do the same**

**West Scafton**

**East Witton**

.

We realise that many will feel disappointed, but we hope the experience of working together as a community has been a very positive one. Certainly, the lovely village environments across the whole group reflect this. The villages have all provided lovely, ambient experiences and done much to add to the natural environments. This has been the opinion fed back to us from the judges this year, most of whom have done this over many years. I also thank them for the work they have done.

I have added a poster page for your village notice board. We are already beginning to consider how best we can improve the Competition, and whatever your experience has been this year we hope you will take part again in 2025.

My thanks to you as the village correspondent  
Every good wish,

Jos Huddleston
